Jetflo & G-Yachts: A Seamless Luxury Journey from Sky to Sea

Founded in Switzerland by Florent Series, JetFlo was created with a simple ambition: to redefine private aviation through a highly personal, transparent and client-centric approach. In an industry where service often follows rigid processes, JetFlo places people first, delivering bespoke private jet charter solutions built around flexibility, trust and uncompromising attention to detail. Every flight is carefully curated by experienced aviation specialists who understand that true luxury lies not only in exceptional aircraft, but in anticipating every client's needs before they arise. This philosophy has enabled JetFlo to become a trusted partner for entrepreneurs, family offices, luxury travel advisors and ultra-high-net-worth individuals seeking seamless global mobility. JetFlo makes the difference between a good flight and a very good flight!

That same commitment to excellence naturally extends beyond the runway. Luxury today is no longer defined by a single experience, it is measured by the flawless connection between every stage of a journey. This shared vision brings together private aviation and superyachting, two industries built on privacy, exclusivity, flexibility and world-class service. You just need to walk the aisles of the Monaco Yacht show to realize that the two industries are completely interlinked.

The partnership between Jetflo and G-Yachts was born from this common philosophy and a simple fact: they share the same clients. Together, the two companies offer clients a fully integrated travel experience, from take-off to anchorage. Whether flying directly to Ibiza, Sardinia, the Greek Islands or the French Riviera, guests enjoy perfectly coordinated transfers between their private aircraft and yacht, eliminating complexity while maximizing comfort and valuable time.

Every itinerary is meticulously tailored, from airport and helicopter transfers to onboard preferences, ensuring a single point of contact throughout the entire journey. As the Monaco Yacht Show brings together the world's most prestigious names in yachting, the collaboration between Jetflo and G-Yachts reflects the evolving expectations of today's discerning travelers: effortless experiences, absolute discretion, and exceptional service without compromise.

Because the finest journeys don't begin at sea, they begin the moment you take off. ■

JETFLO

THE DIFFERENCE BETWEEN A GOOD FLIGHT
AND A REALLY GOOD FLIGHT.
